

September 2019

The Keystone Musical Arts Center provides lessons and classes on most instruments and voice. As the only nonprofit music school on the West Shore, we aim to be a valuable community partner, supporting the efforts of the excellent music teachers in our public and private schools and providing musical opportunities for homeschoolers. Performance opportunities and other positive musical experiences for all ages are available. We are also working with outside organizations to provide music therapy services starting in 2020.

Piano & Voice

Brandon Rhody

Piano, Piano Class

Brandon@KMACenter.org
