

May 2019

The Keystone Musical Arts Center provides lessons and classes on most instruments and voice. As the only nonprofit music school on the West Shore, we aim to be a valuable community partner, supporting the efforts of the excellent music teachers in our public and private schools and providing musical opportunities for homeschoolers. Performance opportunities and other positive musical experiences for all ages are available. We are also working with outside organizations to provide music therapy services starting in 2020.

Our Teachers

Instructor bios are on the website. Feel free to email the teacher directly to ask questions or to set up a free consultation for private lessons. You can also email info@KMACenter.org or call our main number and the director will get back to you right away.

Piano & Voice

Brandon Rhody

Piano

Piano Class

Brandon@KMACenter.org

Andrey Lubimtsev
