		Total	=====	=====

Checks payable to KMAC

Douglas Fir - Soft needles are dark green - blue green in color, approximately 1 - 1 ½ in. in length and radiate in all directions from the branch. When crushed, these needles have a sweet fragrance.

Fraser Fir - Branches turn slightly upward. They have good form and needle-retention. Dark blue-green in color with a pleasant scent.

Blue Spruce - Often used for stuffing pine-pillows, these sharp needles are 1 - 1 ½ in. in length and bluish-gray in color. Good symmetrical form and good needle retention.

Norway Spruce - Trees have dark green crown with a triangular shape. Leaves (needles) are 4-sided (rectangular in section), 1/2-1 inch long and sharp or somewhat blunt at the tip. At the base of each needle is a twig-like projection which remains after the needle is lost.

Wreath Sizes: Small 22"-24"
Medium 24"-26"
Large 26"-28"
